

Dr. Dan Shapiro's Parent Child Journey

An Individualized Approach to Raising Your Challenging Child

led by Sarah Wayland, Ph.D. of *Guiding Exceptional Parents*

This 10-session program is for parents of children (ages preschool through early adolescence) with behaviors of concern. The Parent Child Journey program is designed to help parents identify the sources of their children's challenges and learn what they can do about them. During each session, we will discuss proactive strategies for raising children with difficult temperaments and developmental differences. The emphasis is on customizing the strategy to fit each child's unique profile while taking parents' profiles into account as well. Different children, different parents, different approaches.
